

24(c) PROGRAM AGREEMENT

While the GFVGA does not recommend the use of unlabeled herbicides in fruit and vegetable production in Georgia, the association holds several Special Local Need 24(c) labels for registered use as a service to Georgia growers who have decided that losses from pests outweigh the risk of crop injury.

All users of third party 24 (c) special local need labels held by the GFVGA must be current dues-paying member of the GFVGA. No commercial Georgia grower applying for this label will be denied membership in this Association.

By enrolling in this program and signing the Waiver of Liability and Indemnification Agreement you willingly agree to the following statements,

1. I am a grower member of GFVGA in good standing.
2. I have paid the appropriate administrative fees to participate in this program (\$350.00 Annual Administrative Fee, or \$1.00 per treated acre with a \$50.00 minimum fee).
3. I have read and understand the 'Conditions of Use' fact sheets for all the herbicides to be used, and attached to this agreement, which outlines the specific directions regarding soil/crop preparation, application rates and other safety precautions.
4. I have fully completed the information required, signed and notarized the Waiver of Liability and Indemnification Agreement. The original notarized copy of the Indemnification Agreement is enclosed for the GFVGA to sign and authorize.
5. I understand I must keep a copy of the completed Waiver of Liability and Indemnification Agreement for a period of two years after the GFVGA has returned a signed copy.
6. I understand a new Waiver of Liability and Indemnification Agreement must be signed each calendar year.
